To Whom it May Concern:

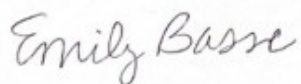

It is my pleasure to provide this letter of recommendation for Danielle McConnell as she pursues a position within your school district. From 2021-2023, I served as assistant principal of Edgewood Elementary School, where Danielle has been employed as both a STEM teacher and a 4th grade teacher in her time there. As a STEM teacher, Danielle served over 590 elementary students at Edgewood, and she established valued relationships with all students and her fellow staff members, and as a classroom teacher she created an inclusive classroom environment where all students could feel successful.

As a staff member, Danielle brings a vast array of valuable leadership skills to Edgewood Elementary School as well as the Fruitport Community School District. She has served on our building's Continuous Improvement Team, has coached middle school volleyball, coordinated a summer STEM program for students utilizing grant funds, and is a longtime coach and building coordinator for the Girls on The Run program. Danielle maintains collaborative relationships with her colleagues and adds a positive force to the building's culture because of her friendly, helpful, and supportive nature.

From a student support standpoint, Danielle is a skilled and motivated individual. She has a growth mindset and is continuously learning and growing as an educator, keeping up-to-date on best practices and innovative ideas within the field of education. She is patient, kind, compassionate, and is able to be professional at all times, including times of crisis. Danielle is a teacher that students often state as their "favorite," and she has the unique ability to empower all students to feel capable, valued, and important. Danielle is a highly effective teacher. She is intelligent, dedicated, organized, passionate about students' well-being, and has a desire to make a difference with students and in the school community. She manages her classroom and materials in a way that fosters high-quality learning experiences for students, and is excellent at providing scaffolded instruction so that all students can find success, no matter their abilities.

Danielle is a professional that will add tremendous value to any organization in which she serves due to her compassion for children, outstanding leadership skills, and innovative ideas for engaging students and families. For these reasons, I am pleased to recommend her for your position. Should you have any further questions or need to contact me for any reason, feel free to reach me at 231-557-7261.

Sincerely,

Emily Basse
Assistant Principal, Mona Shores Middle School
(Former Assistant Principal at Edgewood Elementary School, Fruitport Community Schools)
